**Features and Benefits**  
**M-300E Mixer**

The M-300E was the original Sam-Series Mixer, designed and manufactured primarily for the mini size drill rigs as an alternative to using plain water. Powered by a 10HP Teco/Westinghouse electric motor, driving a 3” centrifugal pump makes effective use of the proprietary StS mixing system. This Bentonite mud mixer is capable of providing 300 gallons of full yield mud to your drill rig in less than 5 mins. The compact unit can be transported to the job site in a standard 8’ pickup box.
