

Bentonite Mud Mixer Model M-750

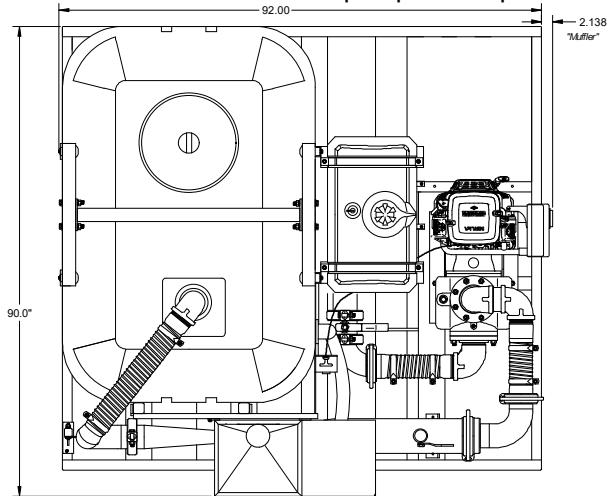

Surface to Surface Inc.

Features and Benefits

M-750 Mixer

The M-750 with its rectangular loaf shaped Roto-Mold tank, is a space saving design with almost square footprint dimensions. Powered by a 23.0 hp Air Cooled electric start engine, driving a 4 inch centrifugal pump making effective use of the proprietary 4 point mixing system, this Bentonite Mud Mixer is capable of providing 750 gallons of full yield mud to your drill rig in less than eight (8) minutes. Added benefits to this unit include the ability to draw water from a second tank and send mud to your drilling rig or storage tank without the use of a second pump. Other power drives available.

Specifications

Dimensions	92"W x 90"L x 75"H
Approx. Weight	2010 lbs.
Hopper Height	42 inches high
Mixing System	4" Proprietary StS Mixing System
Mixing Tank	750 gallon Roto-Mold Polyethylene
Skid frame	5" Steel Channel, Welded
